Certified School Nurse*

As part of the kindergarten screening, your child will have a vision screening. The child will look in a vision machine and see the attached “scenes”. The child should be able to answer the following question:

“What are the “E’s” pointing to? Are they pointing to the girl, the boy, the bird or the bunny?”

Please cut out the four cards and practice with your child. It sometimes helps to practice pointing to items with fingers before actually practicing with the cards.

Thank-you. I look forward to meeting you and your child at the screening.
